2019 Summer Programs in Japan

What is UTREK?

UTREK is a non-profit Japanese exchange organization whose main objective is to develop global understanding and leadership skills in youth and adults. UTREK administers a program combining an international exchange experience and outdoor camp. UTREK's combination of family and camp experiences introduces young people to other cultures and how the surrounding environment has influenced those cultures.

Homestay & Summer Camp Programs (4 weeks / 2 weeks)

All Japanese host families are volunteers and are carefully vetted by us. Your host family wants to share their culture and life, and want to learn about their new family member's culture and life. All families complete an intensive selection process, including orientations. You will be welcomed as a member of your host family and will participate in their normal household routine. Also, there are many chances to do things like visit local shrines and temples, watch fireworks displays in the summer, visit relatives, travel on day-trips to surrounding areas, go shopping, and have the chance to go on sightseeing excursions in your homestay areas. During your homestay, you will also participate in our International Summer Camp in Nagano. We believe that it will be one of the highlights of your youth and an experience you will remember for your whole life.
